### **Poster preparation**

**Title** - Prepare a banner for the top of the poster indicating the title, author(s) and affiliation(s).

**Illustrations** - Figures should be designed to be viewed from a distance, and should use clear, visible graphics. Each figure or table should have a heading in large typeface. Detailed information should be provided in a legend below in smaller typeface. Since there is no text accompanying a poster, the figure legend should describe concisely the content of the figure and the conclusions. Details of the methodology should be kept brief and should be placed at the end of the legend.

**Layout** - Avoid long textual passages and use graphs and diagrams as much as possible.

You may have copies of abstracts available for distribution during the poster session if you want.

Please remove your poster at the end of the session.
